HOBO – OSLO • DAVID ZISSER – OMNAM GROUP • MANDARIN ORIENTAL – VIENNA

SPOTLIGHT OUTDOOR FURNITURE & ACCESSORIES

As the boundaries between indoors and outdoors continue to blur, hotels are transforming terraces, patios and gardens into al fresco lounges.

Atlas Concorde Nyra

Atlas Concorde presents Nyra by Alberto Apostoli, a stone-effect porcelain surface developed as an exploration of wellness architecture. An innovative blend of stone and fabric, Nyra's texture has a lively aesthetic with a strong tactile component, with surfaces enlivened by reliefs that play with three-dimensionality, from natural and sculptural geometries to light-responsive textures. The collection comes in seven shades and two options of 3D reliefs, as well as two mosaic styles: Favus, evoking the structure of honeycomb, and the Roman-inspired Opus. Alberto Apostoli says of the new collection: "I wanted to imagine not just a new product collection, but a living philosophy conveyed by multifaceted surfaces."
